

Figure #. Charts comparing average monthly temperatures sampled at Arenarie cave by the internal datalogger in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

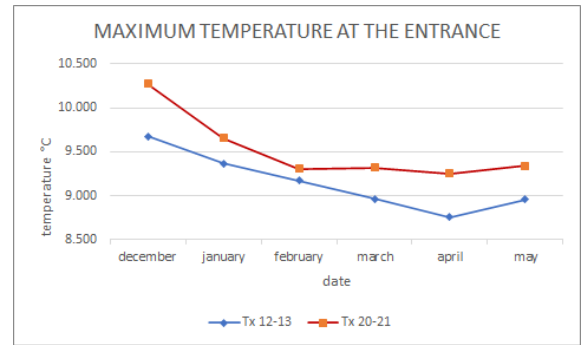

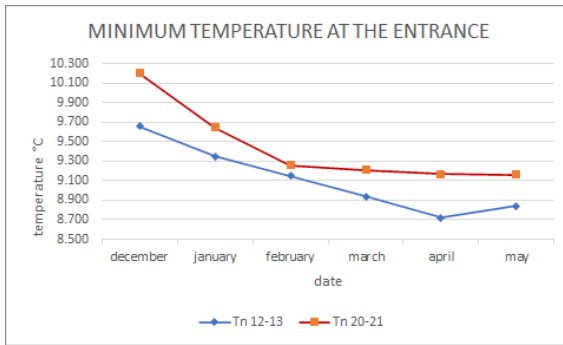

Figure #. Charts comparing average monthly temperatures sampled at cave's entrance in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

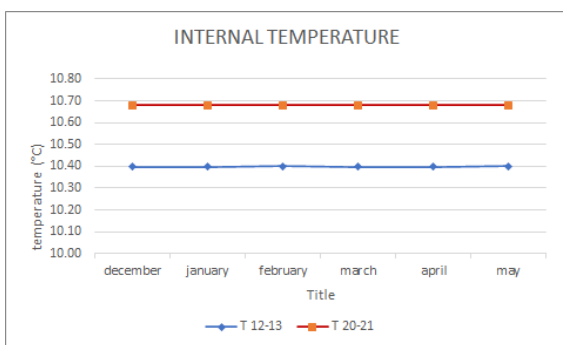

Figure #. Charts comparing average monthly temperatures sampled at Bergovei cave by the internal datalogger in 2012-2013 and 2020-2021 (from 01/12 to 15/05).

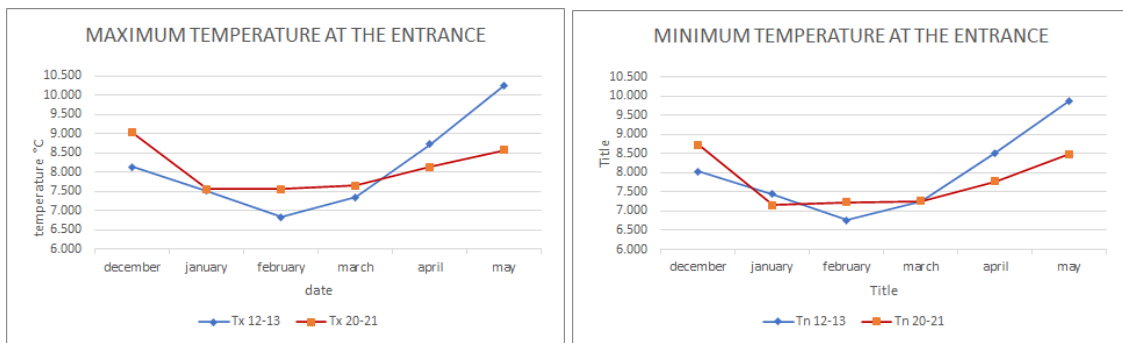

Figure #. Charts comparing average monthly temperatures sampled at Bergovei cave's entrance in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

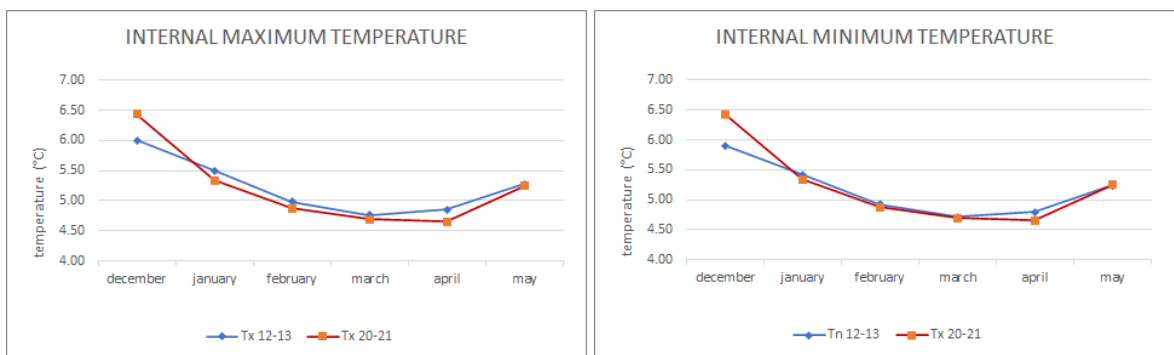

Figure #. Charts comparing average monthly temperatures sampled at Tana del Diavolo cave by the internal datalogger in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

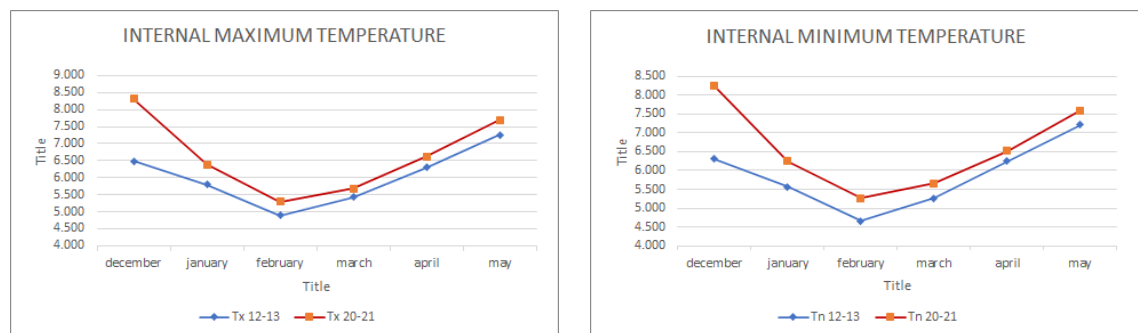

Figure 1.3.3. Charts comparing average monthly temperatures sampled at Buco del Maestro cave by the internal datalogger in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

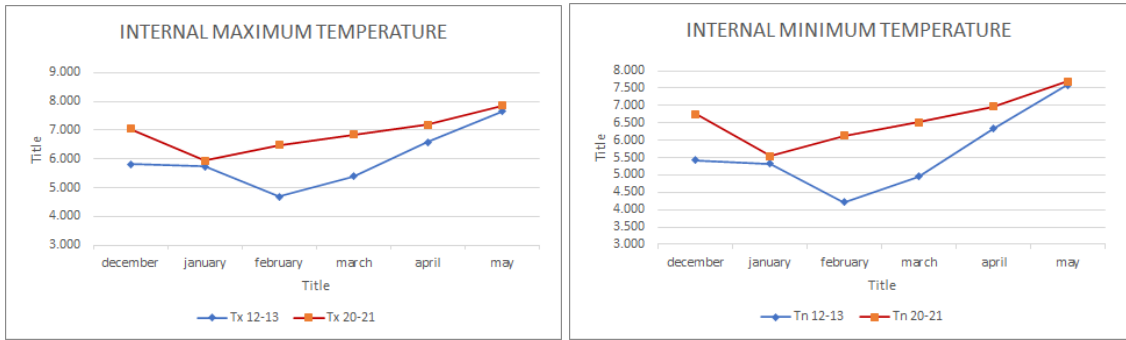

Figure 1.3.3. Charts comparing average monthly temperatures sampled at Borna del Servais cave by the internal datalogger in in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

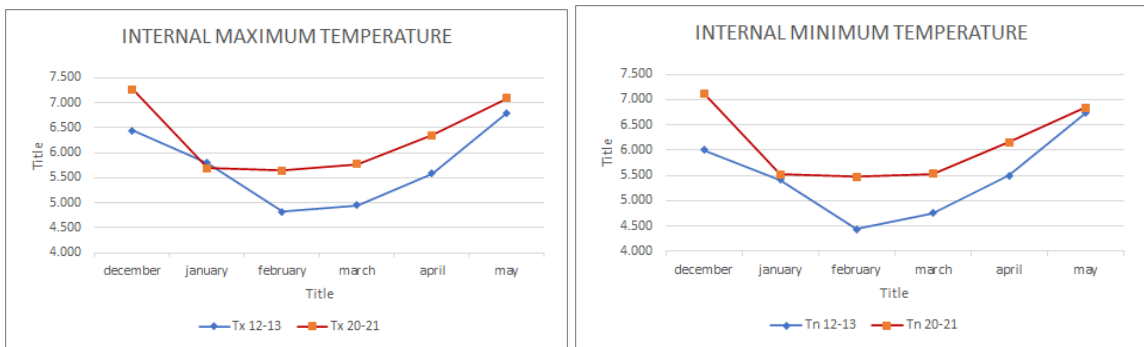

Figure 1.3.3. Charts comparing average monthly temperatures sampled at Tuna dal Diaou cave by the internal datalogger in period A and B. Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.

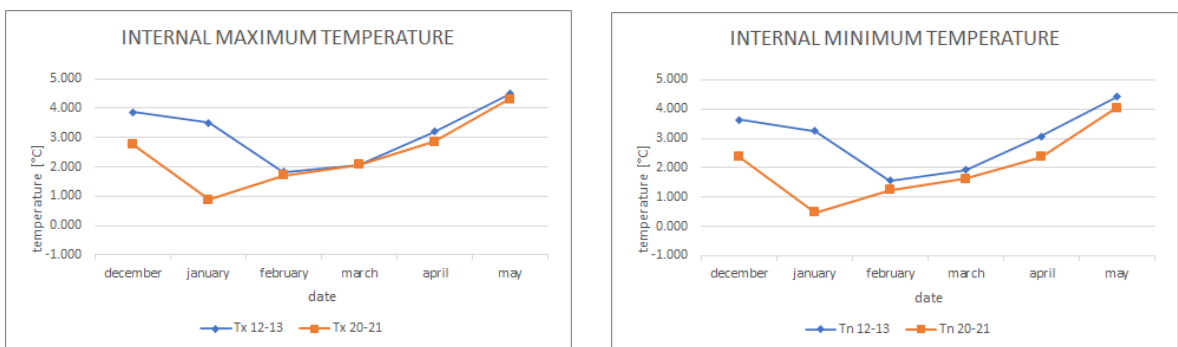

Figure 1.3.3. Charts comparing average monthly temperatures sampled at La Custrata cave by the internal datalogger in in 2012-2013 and 2020-2021 (from 01/12 to 15/05). Left: average of the monthly maximum temperatures; right. average of the monthly minimum temperatures.
